

## CHAPTER 14

### WAR POLICY – TERRORISM

*“You can no more win a war than you can win an earthquake.”* Jeannette Rankin

**END WAR: SEEK DIPLOMACY OVER COMBAT**

Every war in the history of man has ended in a negotiated settlement. I will start no wars and seek to end all wars throughout the world through diplomacy. I will use America's economic power and strength to feed and medicate the people of the world. Imagine how our enemies will feel after we feed their hungry.

As Dwight Eisenhower said, if civilization is to survive we must cultivate the science of human relationships - the ability of all peoples, of all kinds to live together, in the same world at peace.

“Every gun that is made, every warship launched, every rocket fired signifies in the final sense a theft from those who hunger and are not fed. Those who are cold are not clothed. This world in arms is not spending money alone. It is spending the sweat of its labors, the genius of its scientists, the hopes of its children. This is not a way of life at all in any true sense. Under the clouds of war, humanity is hanging on a cross of iron.”

Imagine if wars were ended and we were able to use our resources on education, agriculture, housing, healthcare, and jobs for you and your fellow Americans.
